# EVERGREENS

Walter A. Studley Nursery

Farmville, Michigan, R.F.D.

On US 31 (1/4 mile S of intersection of M 89 & US 31) &  
1/2 mile S & 1/2 mile W of intersection of M 89 & US 31.

We are a member of, American & Michigan Association of Nurserymen.

State Nursery License No. 1146  
Certificate of Nursery Inspection No. 575

Spring 1946

We will ship trees about April 1st. to May 15th.

These prices are for BED RUN (approximate size in inches listed)

*Picea pungens glauca* (COLORADO BLUE SPRUCE) 80-100 feet high; does well on dry sandy soils, it will stand drought of summers the best of the spruces. (The seed from which these trees were grown were hand picked from blue trees in Colorado)

	Price per	25 trees	100 trees	1000 trees
2yr S (2-0) 0-2 inches	\$ .30	2.00	10.00	
4yr TC (2-2) 2-5 inches	2.25	6.00	30.00	

*Pinus banksiana* (JACK PINE) 20-30 feet high; grows well on the poorest and dry light soil. It should have plenty of sun. It is useful for sand dune control and quick growing windbreaks, paper pulp and cheap lumber. It is one of the fastest growing pines and reaches maturity early.

	Price per	25 trees	100 trees	1000 trees
2yr S (2-0) 3-2 inches	\$ .60	1.50	7.00	

*Pinus resinosa* (RED or NORWAY PINE) 70-80 feet high; one of the best pines. It prefers well drained sandy loam soils, it will stand only a little shade. It is useful for sand control, lumber and for shelterbelts. This tree is not seriously affected by disease or insects.

	Price per	25 trees	100 trees	1000 trees
2yr S (2-0) 0-3 inches	\$ .60	1.50	7.00	
4yr TC (2-2) 4-8 inches	1.35	3.75	18.00	

*Pinus strobus* (WHITE PINE) 60-80 feet high; grows on a variety of soil from sand to heavy clay, it does best on sands which are not the very poorest. It grows on fairly wet ground which is almost a marsh, but will not be as vigorous as when planted on a better drained soil. It will stand a little shade. It is useful for lumber, paper pulp and shelterbelts. Makes a fine hedge, has light green foliage. These White Pine are grown in a sanitary Nursery where Ribes have been eradicated by the U. S. D. A.

	Price per	25 trees	100 trees	1000 trees
2yr S (2-0) 0-3 inches	\$ .60	1.50	7.00

Walter A. Studley Nursery

We consider 0-2 and 0-3 inch seedlings too small for field planting, and we think that they should be lined out where they can be watered, shaded and weeded for about two years, they are small due to over crowding in the seed bed, but have good root systems and grow well when transplanted and given room.

EXPLANATION OF PRICE LIST

"S" indicates seedlings

"T" indicates transplants

"TC" indicates close transplants (that is the result of small 2yr seedlings that have been root pruned and transplanted close together and have grown there for two years)

"T 6x6" indicates 6x6" transplants (that is the result of average sized 2yr seedlings, root pruned and transplanted 6 by 6 inches apart and have grown there for two years)(These are well branched)

"(2-2)" the first number indicates the number of years in the seed bed the second number indicates the number of years in the transplant bed.

TERMS:

Cash before shipment. Prices are F. O. B. Fennville, Michigan

500 trees of one variety and size are sold at the thousand rate
